(A) As (B) For (C) With (D) To
27. Jacob retired from his work the year before last, and he _____ as a volunteer in this charity organization ever since.
(A) worked (B) had worked (C) has been working (D) is working
28. We found the task _____ to complete in a day.
(A) easily (B) easy (C) too easy (D) being easy

II 克漏字(共 10 題，每題 2 分，共 20 分)

Babe Ruth was born in a working section of Baltimore, where his father was a saloonkeeper. Babe was a wild teenager, but baseball changed his life. As everyone knows, he 29 the American League in home runs for twelve years, 30 a total of 714 home runs in his career. 31 four seasons he hit over fifty homers each year while playing for the New York Yankees. He was known as the "Home Run King." 32, before that, he was a 23-game-winning pitcher for the Boston Red Sox. In 1974, Ruth was diagnosed with throat cancer and made his final appearance at the Yankee Stadium. Today the small brick row house in Baltimore at 216

Emory Street, Babe Ruth’s first home, is a museum. The Babe Ruth Foundation and the city rescued the little house 33 being damaged and gathered many Babe Ruth mementos from all over the country.

- 29 (A) leads (B) led (C) had led (D) leading
- 30 (A) hitting (B) and hits (C)to hit (D) hit
- 31 (A) At (B) Of (C) For (D) On
- 32 (A) In fact (B) However (C) In addition (D) On the contrary
- 33 (A) out of (B) for (C) from (D) into

Of all the living creatures on earth, 34 of insects is the largest. Some insects are very useful to humans, 35 bees. People get honey and wax from bees. Some insects are extremely harmful, and they 36 a lot of damage, especially to crops. Locusts are perhaps the most dangerous of all 37 they will eat every green plant. When millions of them show up on cultivated land, they soon leave it bare. In some countries, they are the farmer’s greatest enemy. Another nuisance is the common fly, 38 it worries us indoors and outdoors, but also because it spreads disease.

34. A. the number B. a number C. an amount D. the amount
35. A. although B. if C. such as D. for example
36. A. cause B. make C. take D. get
37. A. but B. while C. unless D. as
38. A. not only B. not only because C. because D. not because

III 閱讀測驗(共 8 題，每題 3 分，共 24 分)

Understanding the science of food can help you cook a meal. For instance, if you have ever stood nearby while an onion is being cut, you know it can make you cry. Peeling or cutting the onion allows chemicals inside it to mix and form acid. However, this can be prevented simply by keeping the onion in the refrigerator, or by cutting it under water.

You have also noticed that if you cut certain kinds of fruit, such as apples and bananas, they turn brown if not eaten right away. This happens because the fruit contains a chemical that reacts with oxygen. One way to prevent this is with juice from a lemon or tangerine. That is why fruit salad has orange juice in it. The acid in the juice prevents the chemical reaction.

Whether you are preparing a snack or learning how to cook, science is a part of everything you do. In fact, you might say that to be a cook, you must also be a scientist!

39. What causes people to cry when an onion is being cut?
- (A) One chemical inside produces acid.
- (B) Chemicals inside mix and produce acid.
- (C) Some chemical inside reacts with oxygen and produces acid.

(D)The acid inside mixes with chemicals, which makes people cry.

40. According to the article, we may know that _____ can be used to prevent apples from going brown.
- (A) oranges (B) watermelons (C) pears (D) peaches
41. What is the best title for the article?
- (A) Science in Cooking (B) Fruit and Science
- (C) Fruits in Our Everyday Lives (D) Acid and Food
42. The article states that _____.
- (A) acid is useful in cooking
- (B) scientists are usually good cooks
- (C) keeping fruit in a refrigerator can prevent it from going brown
- (D) science has much to do with our everyday lives

Thomas Edison invented the advanced light bulb with little help from modern technology. When light bulbs were first invented in the 1800s, they only burned for a few minutes. Many inventors had tried but failed to make a light bulb that would burn for a longer time.

Edison was already a successful inventor when he began work on the light bulb. After failing thousands of times, Edison still didn’t give up. Instead, he discovered that tiny pieces of bamboo covered with carbon would work well. So he sent a man to Japan to get the bamboo. The process must have taken years, but Edison waited patiently. As a result of his patience and hard work, he successfully invented the better light bulb that lights up our homes every day.

If people think you are crazy for spending too much time on something that you are creating, **don’t sweat it**; maybe you are the next great inventor! As Edison would have said, “Genius is 1% inspiration and 99% perspiration.” Just keep up your goal and make it come true.

43. This article mainly talks about _____.
- (A) where Edison was born (B) what inventions Edison made
- (C) how Edison became an inventor (D) how Edison invented the better light bulb
44. What was the problem with the first light bulbs?
- (A)They broke easily. (B)They were expensive.
- (C)They burned for a short time. (D)They needed materials that were hard to get.
45. What does the phrase “don’t sweat it” mean in the last paragraph?
- (A)Don’t be silly. (B)Don’t work too hard. (C)Don’t worry. (D)Don’t be crazy.
46. According to the article, what makes the light bulb burn for a longer time?
- (A)Patience. (B)Bamboo. (C)Electricity. (D)Lightning.
